SIGCSE 2015
KANSAS CITY
46th TECHNICAL SYMPOSIUM on COMPUTER SCIENCE EDUCATION

March 4-7, 2015
Kansas City Convention Center
Kansas City, Missouri

Conference Support Opportunities • Invitation to Exhibit
The Premier Event in Computer Science Education

The Special Interest Group in Computer Science Education of the Association for Computing Machinery (ACM SIGCSE) is a community of approximately 2,600 people whom, in addition to their specialization within computing, have a strong interest in the quality of computing education. The SIGCSE Symposium is the flagship conference of the organization and is regularly attended by more than 1,200 people. Conference attendees are looking for new ideas, textbooks to support their courses, and materials to improve the effectiveness of their teaching. Course related software and hardware systems are of great interest. With increased pressure to pursue distance learning and asynchronous learning, attendees will want to find out about the latest innovations in web authoring tools and class management systems.

In addition to selecting the textbooks and support materials for their courses, conference attendees influence the choice of computing equipment for their laboratories as well as for their departments. They select the tools that support teaching and their own scholarly work. They also determine what languages will be used in their courses and what compilers and development environments will be installed. These professionals set aside the time of the Symposium to review what is available and make their choices for the coming years. This is the most efficient way to interact with the most active teaching faculty in computing and information science.

EXHIBITS
The SIGCSE 2015 Exhibits and Conference Sessions will be located in the Kansas City Convention Center in Kansas City, MO. This is the only event of its type that caters to the people in computer science education who make the decisions for acquiring the tools needed for the following school year. Attendees are looking to meet with companies that provide the teaching texts needed by the faculty; hardware and software manufacturers who supply tools which can be utilized at the learning institutions represented by the SIGCSE attendees, students and faculty. Only SIGCSE exhibitors have this unlimited access.

ATTENDEES
The SIGCSE Conference attendee is international, representing Canada, New Zealand, and countries in Europe, Asia, South America, and Africa. The majority of our attendees (approximately 90%) come from across the United States. The program format of panels, papers, special sessions and workshops appeals to a broad range of interests.

SIGCSE provides its exhibitors with a unique opportunity to reach this select community of decision makers from the computer science education community in their immediate area as well as from around the United States and the world.
